

3/6/19 SVNA meeting at Fig Tree

February 21 RCONA notes:

Roseville PD - 2018 summary is on website

Measure B money is going to help police dept with more hiring

Goal is to have someone at each NA meeting - although it might not be the beat cop.

Senior Scams - Can send a guest speaker to talk about this

Movie in the park list is out

Guest speakers:

Jana Cervantes, Senior Engineer - City of Roseville

Noah, Public Works Engineer - City of Roseville

Nick - Detective with Roseville PD - Community Outreach

Sgt. Mark Brazael - Traffic Sergeant with Roseville PD

Traffic/neighborhood concerns:

1. no sidewalks for Spanger and high school students on some streets
  - a. No city funding available - no laws to have to have sidewalks
  - b. Safe Routes for Schools - grants for sidewalks in community
    - i. Need to survey neighbors and see if everyone is on board - especially those who will have the sidewalk on their property
    - ii. Then contact the City and they will facilitate the process to apply for grant
  - c. Sidewalk maintenance is the responsibility of the adjacent property owner
    - i. Unless if damage due to City trees
    - ii. Need to get an encroachment permit (fee/cost) from the City to do any maintenance on the sidewalks
2. Traffic/speeding through Yosemite/Sierra intersection and over the Crooked Bridge
  - a. Roseville PD Traffic Division is very small - can't be everywhere
    - i. On City website, go to PD page and click 'Report a traffic complaint' for chronic issues - this will bring attention to the traffic department and they can investigate
    - ii. They put the resources they currently have where there is the most need - arterial streets
    - iii. Currently expanding and hiring
  - b. Plan to add a left turn lane onto Sierra from Northbound Yosemite to help alleviate the 4:00/5:00 congestion - NO other plans to divert traffic from our neighborhood as cut through
  - c. We can request traffic studies through the City - 24-48 hours of data collection through hoses
  - d. The 'Crooked Bridge' gets inspected every year for structural integrity
  - e. Handout given out by Jana - (I will scan in and share)
  - f. Neighborhood crime update handout (I will scan and share)

3. Other notes:

- a. Cannot close residential streets
- b. Can register your security system with Roseville PD and they can know they have that as a resource - but you only give them access if they need it
- c. Vehicle burglaries and open garages are #1 issue in Beat 4 - PD recommends LOCK ALL DOORS
- d. Recent M.O.U. signed with neighboring cities to not drop transients where the resources are better
- e. Roseville PD has a Social Service Unit dedicated to the transient/homeless issues.

Upcoming events:

1. Garage Sale planning (for a June sale) - 4/6
2. National Neighborhood Day planning - 8/7 (NND is in September or October?)
3. Annual Halloween House Contest planning -10/2

Great job Darci. Thank you.
